3/3 answered

write a program to print the total amount available in the atm machine with the conditions applied total denominations are 2000, 500, 200,100, get the denomination priority from the user and the total number of notes from the user to display the total available balance to the user

Your Code

```
1 import java.util.Scanner;
2 public class Main {
3     public static void main(String[] args) {
4         Scanner sc = new Scanner(System.in);
5         int total = 0;
6         for (int i = 0; i < 4; i++) {
7             if (sc.hasNextInt()) {
8                 int denomination = sc.nextInt();
9                 int notes = sc.nextInt();
10                total += denomination * notes;
